

ELECTRIC TUG

Maximise time · Minimise emissions · Improve health and safety

The B&M electric pedestrian tug is perfect for indoor and outdoor use. It is small, manoeuvrable and powerful enough to tow up to 3000KG. It has a range of up to 12 miles with a full loads on a single charge, with a recharge time of approximately 4 hours.

Key Benefits:

- Zero emissions
- Quiet
- Compact size makes it easy to access waste in small areas
- Increased efficiency as operators are not required to walk around large sites
- Improved health and safety as manual waste movement is minimised
- Ideal for ramped areas such as basements and car parks
- Can be charged from a standard, domestic 13 AMP socket

Key Components:

- Range of 12 miles per charge
- Load cage for additional transport of small parcels and boxes
- Can be fitted with ball or pin hitches to tow bins, trailers or roll cages
- IP65 rated all-weather use, with emergency brake
- Red safety / anti-crush button - unit stops when operator releases tiller arm
- 2.8mph speed allows operator to range from creep to brisk walk pace
- Speed can be set to a minimum for safe operation
- Options include custom load boxes, strobe lights and motion beepers
