# Mill Sized Baler

## FREE 14 DAY TRIAL ON A BRAND NEW BALER

### Includes:

- Delivery and commissioning
- Operator training
- Operator manual
- Initial provision of baling wire
- Fully comprehensive maintenance cover

The B&M 500 Mill Sized Baler not only performs a vital waste management role by diverting your waste from landfill, it can also provide your business with a significant new revenue stream.

For a limited time, B&M Waste Services is offering you a free trial to demonstrate how you can earn a rebate from your waste recyclates like cardboard, plastics, PET, aluminium cans and film, and how baling helps to reduce your waste transport costs and improves the quality of your recycling to achieve maximum returns.

### Key benefits:

- Produces a mill size bale
- Bales produced are easy to handle and stack
- Sort waste at source so no cross-contamination occurs
- Increases recycling and reduces frequency of collections of waste, therefore reducing waste collection costs
- Bales produced can be directly internationally traded without further processing, maximises rebate return
- 1-2 week lead time to deliver on-site
- 3 and 5 year rental agreements available after the trial period
- Trial can be cancelled at any time with free collection
